## FORESTATION PROJECTS ALVANCE

UMPRODUCTIVE AREAS REFORESTED -- Trybuna Ludu, No 61, 3 Mar kg

The unproductive area of Poland covers 2,500,000 hectares. Because of the destructive rollicy practiced in the last century and a half, the productive area of the forests was reduced from 5 to 4 million hesteres. Eighty-eight percent of the forests are coniferous. During the economic year 1948-63, 152,000 hectares will be reforested.

TREES FOR LOUNT SLASE -- Zycie Warstway, No 61, 5 Mar 49

During 1949, 6 million trees will be pleated in the Dolmy Slask area. These trees will be supplied by the Dyrekoja Ckregowa Lasov Panstwowych (Regional Management for State Forests) and will be planted on nonarable lands and on lands that produce poorly.

MORE TREES FOR KRANOW WOJEWODZIWO -- Poloka Ludowa, No 32, 17 May 49

The Ministry of Forests has allotted a credit of 150 million slotys for afforestation in Krakow Wojewocztwo. This year, 7,300 heatares will be planted with trees.

FALLON LANDS TO BE AFFORESTED AND CULTIVATED -- Geneta Judova, No 54, 5 Mar 49

During 1949, all fallow lands, amounting to 725,000 heaters, are to be eliminated. Of these, 125,000 heaters will be afforested and the remaining 600,000 heaters will be cultivated and sown. The largest accreages of fallow lands, approximately 500,000 hectares, are found in Olsstyn and Scorecin Wojevodstvos.
